All corporate plans are on an annual basis, a 1 year contract, to be renewed at anniversary date for the next year. Company provides a roster of employees to utilize gym. Contract to be signed by both company (re: terms of dues) and individual (liabilities and guest fees).

Individuals will receive a key tag to use at front desk to check in.

Separate accounts can be set up for concession charges unless corporation allows for miscellaneous charges. Company to be debited monthly by gym for fees or option to pay 6 months or 1 year in advance.

Corporate plans allow for the companies to switch out employees (lay off, new hire etc.) at no cost at any point in the membership. We will need to be notified of any employees switching and the new employee must come into the club to get set up with key tag. *Companies will be charged for a minimum of five employees no matter how many take part in plan.* If company chooses not to renew after one year, members will be offered regular rates.

Family members of corporate members would have to do a separate membership. Any corporate member wanting to participate in extra gym activities or to bring guest would be subject to normal gym fee
